

Isaac Watts

📍 VA, USA ✉ Isaac.s.watts@gmail.com ☎ 804-721-2007 in Isaac Watts 🌐 IwattsX

Executive Summary

I hold a Bachelor of Science in Computer Science and Mathematics (dual major) from Virginia State University, graduating summa cum laude. With a strong interest in data science, I have gained experience in machine learning and robotics through academic research projects and past internships. These experiences have developed my ability to work with complex technical systems and derive insights from structured and unstructured data. Outside of academics, I enjoy activities that reinforce logical thinking and pattern recognition, such as chess, puzzles, solitaire, and strategic gaming, which complement my analytical mindset.

Technical Skills

Programming Languages: Python, C, C++, Java, C#, JavaScript, Kotlin, R, MATLAB, LaTeX

Databases: Relational databases(MySQL, PostgreSQL, and SQLite) and Nonrelational databases (MongoDB)

Data Processing & BI Tools: Pandas, NumPy, Tableau, Excel

Version Control & DevOps: Git, GitLab, Docker

Operating Systems: Windows 11 and Ubuntu 22.04

Experience

Robotics Student Researcher

Adelphi, MD

Army Research Lab

May 2024 – August 2024

- Trained an AI agent using Unity observations to re-establish radio communications through reinforcement learning by simulating radio waves.

Robotics Student Researcher

Adelphi, MD

Army Research Lab

May 2023 – August 2023

- Developed an image processing tool to convert an 8-bit image to a 16-bit format. Compressed that 16-bit image using an image transport layer that allowed the data to be passed through the network.
- Automated writing Robot Visualization files for multi-robot experiments by using a Python automation script, resulting in no longer needing to manually do everything in an RVIZ GUI or file, boosting productivity.

Student tutor

Petersburg, VA

Virginia State University

September 2023 – May 2024

- Tutor for the computer science department at VSU for Java, Python, SQL, R, and C++. Additionally, I tutored people in math subjects such as calculus and discrete mathematics.

Education

Virginia State University

GPA: 3.9

Bachelor's Degree in Computer Science

- **Coursework:** Intro to Data Science, and Digital Image Processing, Probability & Statistics for CS

Virginia State University

GPA: 3.9

Bachelor's Degree in Mathematics

- **Coursework:** Linear Algebra and Discrete Math

John Tyler Community College

GPA: 4.0

Associates in General Studies

Projects

Robotic Arm Simulation using Isaac Sim

github.com/stars/IwattsX/lists/robotsim 

- Created a ROS2 node using rclpy (Python) that publishes Joint State data using Omniverse's Isaac Sim and Isaac Lab, resulting in a ROS2 node that consistently publishes the correct Joint State data of the robot in the simulation.
- Graphed hand data in Matplotlib that was generated from an Oculus Quest alongside Unity's game engine.
- Created and modified URDF files of a robot hand to visualize and control the joints.

Medical Bodies

https://github.com/IwattsX/med_bodies 

- Generated voltage data of a single inclusion within a circular Mesh using Matlab.
- Used that data to train a neural network to detect the position of the inclusion within the circular mesh using the generated voltage data and return an image of the circular mesh. This was trained using ELU activation functions and a Mean Squared Error Loss (MSE) with an ADAM optimizer.

Steam Scouts

github.com/IwattsX/Digi-Dynamics 

- Developed a Django-based web application that integrates with the Steam Web API to store and search video game data in a MySQL database.
- Used MySQL-connector-python for creating and inserting into MySQL tables game data, retrieving JSON data for games, demos, DLC, music, and movies from the Steam Web API.

Certificates

- | | |
|---|---------------|
| ◦ Anaconda Python for Data Science Professional Certificate | May 2025 |
| ◦ Learning Python (2021) | May 2025 |
| ◦ Statistics Foundations 1: The Basics | May 2025 |
| ◦ Statistics Foundations 3: Using Data Sets | May 2025 |
| ◦ Introduction to Data Science | May 2025 |
| ◦ Learning Excel: Data Analysis | May 2025 |
| ◦ MATLAB Programming Techniques | March 2025 |
| ◦ MATLAB Fundamentals | February 2025 |
| ◦ Intermediate Android Development Course for Virginia State University | December 2024 |

Publications

A Transformer Approach for Camera-to-LIDAR Data Registration

October 2024
